

● Apricot Net Weight: 2.5 kg

High Speed

## Model XE Resin

Model XE enables fast, seamless 3D printing, guaranteeing the production of high-quality, long-lasting dental models with exceptional wear resistance

### Benefits

- ✔ Efficient production
- ✔ Guaranteed accuracy
- ✔ Long-lasting durability
- ✔ Consistent quality maintenance over time

### Applications

- 👤 Implant model
- 👤 Model with dies
- 👤 Orthodontic model
- 👤 Restoration model

### ROI

Amount: 21.6 g/set  
95 printed model with a bottle of 1KG

### Viscosity

Lower viscosity values indicate that the resin is easier to mix.

265 mPa·s (25°C)

### Flexural Strength

Higher flexural strength ensures that the model doesn't break during regular use.

74 MPa

### Flexural Modulus

Higher flexural modulus prevents the model from distorting, which can impact accuracy.

2091 MPa
